Hello,

Pursuant to the Massachusetts Public Records Law, I hereby request the following records:

Please search all emails sent to or received by MassTech email addresses.

Limit the search to emails sent between 1/1/2025 and the present date (where the present date is the date this request is fulfilled).

Limit the search to emails containing the keyword "Sheba".

Thank you,
Nathan Story

Good afternoon,

We are still working on your request. The email files were provided by our IT department in Microsoft Outlook PST format. We are working on converting all emails to PDF, and this is time consuming. If possible, we would appreciate an extension of one week to respond to this request. Alternatively, we can provide the PST files within the 10-day period for responding to your request if you are able to open them.

Thank you,

Jennifer Saubermann

A PST file would be great, preferred even.

Thanks!
Nathan

Nathan,

I was out of town last week, and have been working with our staff this week on your request, but we have been unable to complete our review within the 10-day period to respond to your request. I am requesting a one-week extension to provide the responsive documents. We have 67 PST files containing the word "sheba", some containing over 100 emails, and we need to continue our review to determine whether any are exempt from disclosure.

I would greatly appreciate it if we could provide you will all responsive documents by July 30.

Thank you,

Jennifer

Hi Nathan,

I have run into a technical issue with some of the files. I am hoping that you would be amenable to another short extension. Is it possible for me to respond tomorrow? I apologize for the delay.

Thank you,
Jennifer

Good morning,

In response to your request below, please find attached a letter containing a Dropbox file containing all responsive documents. You will note that emails are saved as PST files by name of each email mailbox containing responsive records, with the exception of one, which we had to save as individual Outlook email files (.msg) as the PST file would not upload. In addition, there is a series of emails referencing a slide deck on our internal SharePoint site. I have downloaded that PPT and included it in the Dropbox folder.

If you have difficulty opening any of the documents, please let me know, and I apologize the delay in responding to your request.

Thank you,

Jennifer
