Hi Joe and Hawa --- Jeanne and I were working on this opportunity and if you recall, Kirk participated in the announcement. They're asking if there's any change to the potential grants that they could be eligible for.

See attached letter from March – does this still apply or are there any updates?

Also, I'm meeting with their US team next Wednesday 2 July at 9am ET – let me know if either of you would like to join us in-person or via Teams?

Thanks!

Dear Jeevan,

I hope this email finds you well. I am reaching out to inquire whether there are any updated funding grant plans that we might qualify for. We are enthusiastic about exploring all potential opportunities that could support our initiatives.

If there are any new or upcoming grants that you think we should consider, we would greatly appreciate your guidance.

Thank you for your assistance.

Best regards,
Orli.

Subject: RE: [Zoom] Meeting with Dr. Zimlichman

Dear Dr. Zimlichman --- Thanks again for briefing our team. We all agree that Sheba ARC is an exciting initiative that aligns with our state's strategic objectives, and we want to see this priority project happen. We are also finalizing the meeting with the Governor and hope to have her availability on either April 7th or April 8th soon; we'll also plant to schedule a 1:1 with Secretary Hao, depending on her availability, while you're here.

Next week, you'll be receiving a letter from the Massachusetts Life Sciences Center with a proposal that includes a commitment from the MLSC Tax Incentive Program that can be awarded directly to Sheba ARC's portfolio companies (up to \$5 million, based on certain job creation targets) along with several other grant programs that Sheba ARC can apply for through a competitive process.

I know this is not exactly what you are looking for but given the uncertainty of the state's fiscal environment and the timing of the annual budget process, we are limited to what we can offer at this time. Note that this is not specific to Sheba ARC, but rather, these limitations are impacting all our other projects as well.

Of course, this does not preclude Sheba ARC from seeking a budget appropriation from the Legislature, for which there is a process to endure. Nor does it preclude future funding opportunities if the MLSC's discretionary funding is recapitalized, at which we can certainly engage in further

discussions on to how to best leverage state resources to support Sheba ARC.

Let me strongly reiterate our willingness to work with you and your team to bring Sheba ARC to Massachusetts. If helpful, I'm happy to schedule quarterly calls with to keep you updated but know that our door will always be open to you.

Thank you,

Dear Jeevan.

Hope you are all well.

In follow up to our conversation from two weeks ago, I was wondering if there are any updates.

Ideally, I would like to be able to discuss more specific details of our joint plan ahead of my visit next month. With hopes that maybe we can announce on my visit.

Would also be good to set time to meet while I am in Boston, April 4-8. We discussed also potentially meeting the Governor as a way to promote our collaboration.

We all believe that there is a real opportunity to drive better health and economic growth to the Commonwealth of Massachusetts, and are keen to drive this forward.

Best wishes.

Subject: Invitation - Event with BIRD Foundation CEO – August 12

Dear Dr. Taylor, Ms. Fall

I would like to thank you once again for taking the time to meet with us recently. Truly enjoyed our conversation and looking forward to deepen this kind of discussion.

I also wanted to take this opportunity to update you on an upcoming visit to Boston by Mr. Yaron Lotan, the CEO of the BIRD Foundation, scheduled for August 11–12. The BIRD Foundation (Binational Industrial Research and Development) is a U.S.-Israel partnership that supports joint industrial R&D projects. It offers matchmaking assistance between U.S. and Israeli companies and provides funding of up to 50% of project development costs, up to \$1.5 million per project.

Since its establishment by the U.S. and Israeli governments in 1977, BIRD has supported hundreds of projects across diverse sectors including energy and environment, advanced manufacturing, agrotechnology, cleantech, communications, cybersecurity, electronics, fintech, foodtech, healthcare IT, homeland security, life sciences, nanotechnology, semiconductors, software, water, and other innovative technologies.

On the morning of August 12th, I will be hosting an executive briefing over breakfast at my residence. Mr. Lotan will present the foundation's mission and work. This will also be a great opportunity to meet others interested in BIRD's initiatives.

Please find attached a brief background note on both the BIRD Foundation and Mr. Lotan, as well as the invitation to the event and a link for advance registration:

<https://form.jotform.com/252014048992154>

I hope this event will be of interest to you and the team at MLSC, and if so, you are warmly invited to join us on the morning of August 12th.

Thank you again for your continued partnership.

Warm regards,

Benny Sharoni

Dr. Taylor,

Good afternoon. Thank you for the reply. My apologies, I meant to provide some additional context for this meeting request.

The Director of the Higher Education, R&D and Innovation Team at the Budget Department of the Israel Ministry of Finance, **Ms. Avigail Wenkart**, will be visiting Boston from **Wednesday, July 23rd to Friday, July 25th**. She would like to meet with you to learn from the MLSC's model for advancing public-private partnerships, workforce development, and infrastructure investment in the life sciences ecosystem, and to exchange perspectives on how public funding can best support long-term scientific and economic impact. I have listed some revised meeting times below. I look forward to working with Kathryn to find a time that works for everyone to meet either at the consulate or another location in Boston.

<YKESCHNER@BWH.HARVARD.EDU>; benny.sharoni@mfa.gov.il

Subject: RE: [Zoom] Meeting with Dr. Zimlichman

Dear Dr. Zimlichman --- Thanks again for briefing our team. We all agree that Sheba ARC is an exciting initiative that aligns with our state's strategic objectives, and we want to see this priority project happen. We are also finalizing the meeting with the Governor

and hope to have her availability on either April 7th or April 8th soon; we'll also plant to schedule a 1:1 with Secretary Hao, depending on her availability, while you're here.

Next week, you'll be receiving a letter from the Massachusetts Life Sciences Center with a proposal that includes a commitment from the MLSC Tax Incentive Program that can be awarded directly to Sheba ARC's portfolio companies (up to \$5 million, based on certain job creation targets) along with several other grant programs that Sheba ARC can apply for through a competitive process.

I know this is not exactly what you are looking for but given the uncertainty of the state's fiscal environment and the timing of the annual budget process, we are limited to what we can offer at this time. Note that this is not specific to Sheba ARC, but rather, these limitations are impacting all our other projects as well.

Of course, this does not preclude Sheba ARC from seeking a budget appropriation from the Legislature, for which there is a process to endure. Nor does it preclude future funding opportunities if the MLSC's discretionary funding is recapitalized, at which we can certainly engage in further discussions on to how to best leverage state resources to support Sheba ARC.

Let me strongly reiterate our willingness to work with you and your team to bring Sheba ARC to Massachusetts. If helpful, I'm happy to schedule quarterly calls with to keep you updated but know that our door will always be open to you.

Thank you,

Dear Jeevan.

Hope you are all well.

In follow up to our conversation from two weeks ago, I was wondering if there are any updates.

Ideally, I would like to be able to discuss more specific details of our joint plan ahead of my visit next month. With hopes that maybe we can announce on my visit.

Would also be good to set time to meet while I am in Boston, April 4-8. We discussed also potentially meeting the Governor as a way to promote our collaboration.

We all believe that there is a real opportunity to drive better health and economic growth to the Commonwealth of Massachusetts, and are keen to drive this forward.

Best wishes.

Subject: RE: [Zoom] Meeting with Dr. Zimlichman

Dear Dr. Zimlichman --- Thanks again for briefing our team. We all agree that Sheba ARC is an exciting initiative that aligns with our state's strategic objectives, and we want to see this priority project happen. We are also finalizing the meeting with the Governor and hope to have her availability on either April 7th or April 8th soon; we'll also plant to schedule a 1:1 with Secretary Hao, depending on her availability, while you're here.

Next week, you'll be receiving a letter from the Massachusetts Life Sciences Center with a proposal that includes a commitment from the MLSC Tax Incentive Program that can be awarded directly to Sheba ARC's portfolio companies (up to \$5 million, based on certain job creation targets) along with several other grant programs that Sheba ARC can apply for through a competitive process.

I know this is not exactly what you are looking for but given the uncertainty of the state's fiscal environment and the timing of the annual budget process, we are limited to what we can offer at this time. Note that this is not specific to Sheba ARC, but rather, these limitations are impacting all our other projects as well.

Of course, this does not preclude Sheba ARC from seeking a budget appropriation from the Legislature, for which there is a process to endure. Nor does it preclude future funding opportunities if the MLSC's discretionary funding is recapitalized, at which we can certainly engage in further discussions on to how to best leverage state resources to support Sheba ARC.

Let me strongly reiterate our willingness to work with you and your team to bring Sheba ARC to Massachusetts. If helpful, I'm happy to schedule quarterly calls with to keep you updated but know that our door will always be open to you.

Thank you,

+ -Jeevan- +

Dear Jeevan.

Hope you are all well.

In follow up to our conversation from two weeks ago, I was wondering if there are any updates.

Ideally, I would like to be able to discuss more specific details of our joint plan ahead of my visit next month. With hopes that maybe we can announce on my visit.

Would also be good to set time to meet while I am in Boston, April 4-8. We discussed also potentially meeting the Governor as a way to promote our collaboration.

We all believe that there is a real opportunity to drive better health and economic growth to the Commonwealth of Massachusetts, and are keen to drive this forward.

Best wishes.

Hi Jeevan,

There should be no changes to the commitment letter if everything remains the same on their end. If they have any changes, then we can adjust the commitment letter. Yes, I can join you on July 2nd at 9am.

Thanks,

Hawa

Subject: FW: State's grants and funding opportunities

Hi Joe and Hawa --- Jeanne and I were working on this opportunity and if you recall, Kirk participated in the announcement. They're asking if there's any change to the potential grants that they could be eligible for.

See attached letter from March – does this still apply or are there any updates?

Also, I'm meeting with their US team next Wednesday 2 July at 9am ET – let me know if either of you would like to join us in-person or via Teams?

Thanks!

Dear Jeevan,

I hope this email finds you well. I am reaching out to inquire whether there are any updated funding grant plans that we might qualify for. We are enthusiastic about exploring all potential opportunities that could support our initiatives.

If there are any new or upcoming grants that you think we should consider, we would greatly appreciate your guidance.

Thank you for your assistance.

Best regards,
Orli.
