Subject: 2025 Mass. Cybersecurity Forum – Thanks for Attending – Highlights & Takeaways Inside

Date: Wednesday, October 8, 2025 12:33:16 PM

[image.png](#)

Thank you for joining us at the ninth annual Massachusetts Cybersecurity Forum on October 6th. This year's theme—[Cybersecurity is Economic Security](#)—underscored the vital role cybersecurity plays in protecting and advancing the Commonwealth's economy. The Forum brought together industry leaders, academic institutions, and government officials to explore how collaboration, innovation, and workforce development are essential to securing our economic future.

During the Opening Keynote, MassTech's Deputy Director and Chief Investment Strategist Ben Linville-Engler delivered remarks centered on the success of the MassCyberCenter's Security Operations Center/Cyber Range Initiative and how it support's the state's cybersecurity ecosystem and workforce development initiatives, including the announcement of a \$300,000 grant to UMass Lowell for the building of a Security Operations Center on campus.

The first panel session explored the critical role cybersecurity plays in safeguarding the Defense Industrial Base (DIB), a cornerstone of both national security and economic strength. Panelists from **UMass Lowell, Wingbrace, Ciseve, and CyberTrust Massachusetts** discussed how targeted workforce development and innovation are essential to protecting defense-related supply chains and infrastructure. The panel emphasized the need for specialized cybersecurity talent capable of addressing the unique challenges faced by defense contractors and manufacturers, including compliance with federal standards like CMMC.

The second panel session focused on the evolving cybersecurity landscape for small businesses in Massachusetts and how they are adapting to protect both their operations and their customers. Panelists from the **Mass. Small Business Development Centers, Mass. League of Community Health Centers, Mass. Retailers Association and the Mass. Executive Office of Economic Development** discussed the growing threats facing small enterprises, and

how these risks can have devastating financial and reputational consequences, especially for businesses with limited resources. By investing in cybersecurity, small businesses are not only protecting their assets—they're reinforcing customer confidence and contributing to the broader economic stability of the Commonwealth.

As part of the Forum's interactive programming, attendees enjoyed a lively round of **Ctrl-Alt-Destruct**, a cybersecurity-themed card game that brings humor and camaraderie to the world of IT. Designed to spark laughter while subtly reinforcing cyber concepts, the game invited participants to compete, collaborate, and joke their way through fictional cyber mishaps and quirky scenarios. It was a refreshing reminder that even in a high-stakes field like cybersecurity, there's room for fun, creativity, and connection.

Also thank you to all the people who made the Forum possible—Commonwealth leadership, speakers, panelists, moderators, and the [Massachusetts Cybersecurity Strategy Council](#).

We welcome your [feedback](#) on the event and look forward to talking with you again soon.

Subject: Inquiry Regarding Digital Health Sandbox Grant Opportunities
Date: Saturday, December 6, 2025 9:49:29 AM

Dear Ms. Green,

My name is Prof. Ofira Zloto, and I am part of the leadership team establishing ARC Boston, a new healthcare innovation accelerator located in Boston. ARC Boston is an extension of the ARC Innovation Center at Sheba Medical Center (Israel), one of the world's leading medical innovation ecosystems. The Boston accelerator will host startups on-site, provide advanced infrastructure, and connect companies with clinical and academic partners across Massachusetts.

We are very interested in applying for one of the Digital Health Sandbox Program grant opportunities. Before submitting an application, I would greatly appreciate the opportunity to speak with you to better understand:

- Which grant mechanism is the best fit for our accelerator and participating startups (Rolling Grant / Sandbox Challenge).
- The detailed eligibility criteria for each option.
- The expected deadlines and timeline, as these are not clearly indicated on the website.
- Any recommendations you may have before we prepare a formal application.

If possible, I would be grateful to schedule a short introductory call at your convenience in the coming days.

Thank you,
Ofira Zloto

Professor Zloto,

Thank you for reaching out about applying for the Digital Health Sandbox Program. I believe you've met with our Director, Keely Benson, and she and I spoke a few months ago with Eyal and Yonatan. We're excited to explore opportunities for our program to support ARC Boston.

It would be great to find time for a call to discuss our programs. Here are some times that work for me and Keely for a virtual meeting:

- Wed. 12/10: 11 - 11:30AM
- Mon. 12/15: 2 - 3:30PM
- Wed. 12/17: 1 - 4PM
- Thurs. 12/18: 11:30AM - 1PM

Please let me know if any of these would work on your end.

Best,
Katie

Subject: Inquiry Regarding Digital Health Sandbox Grant Opportunities

Dear Ms. Green,

My name is Prof. Ofira Zloto, and I am part of the leadership team establishing ARC Boston, a new healthcare innovation accelerator located in Boston. ARC Boston is an extension of the ARC Innovation Center at Sheba Medical Center (Israel), one of the world's leading medical innovation ecosystems. The Boston accelerator will host startups on-site, provide advanced infrastructure, and connect companies with clinical and academic partners across Massachusetts.

We are very interested in applying for one of the Digital Health Sandbox Program grant opportunities. Before submitting an application, I would greatly appreciate the opportunity to speak with you to better understand:

- Which grant mechanism is the best fit for our accelerator and participating startups (Rolling Grant / Sandbox Challenge).
- The detailed eligibility criteria for each option.
- The expected deadlines and timeline, as these are not clearly indicated on the website.
- Any recommendations you may have before we prepare a formal application.

If possible, I would be grateful to schedule a short introductory call at your convenience in the coming days.

Thank you,
Ofira Zloto

Professor Zloto,

Thank you for reaching out about applying for the Digital Health Sandbox Program. I believe you've met with our Director, Keely Benson, and she and I spoke a few months ago with Eyal and Yonatan. We're excited to explore opportunities for our program to support ARC Boston.

It would be great to find time for a call to discuss our programs. Here are some times that work for me and Keely for a virtual meeting:

- Wed. 12/10: 11 - 11:30AM
- Mon. 12/15: 2 - 3:30PM
- Wed. 12/17: 1 - 4PM
- Thurs. 12/18: 11:30AM - 1PM

Please let me know if any of these would work on your end.

Best,
Katie
